About Spaces II

AN EXTENSIVE COLLECTION OF REVERBS FROM AROUND THE WORLD

If you're looking for a comprehensive collection of impulse responses from every location imaginable, Spaces II is a Swiss army knife of creative and technical reverbs to suit any genre. From a large orchestra down to or a 5-piece ensemble or solo performance, Spaces II makes it easy to select a contextually appropriate and believable reverb for nearly any stage or environment you like, while offering clear detail that would normally get washed away in other convolution reverbs.
